Sustainable improvement begins with trustworthy data that provides a clear view of your performance compared with other hospitals like your own. The Vizient Clinical Data Base delivers total transparency through risk-adjusted methodologies and benchmarked outcomes data. Our Clinical Data Base allows you to focus on cost drivers and quality of care through a single platform. It highlights opportunities for improvement by combining risk-adjusted encounter data and line-item transactional detail to yield information on patient outcomes.

The Resource Manager lets you examine trends and patterns in utilization across nine clinical resource categories. You can also benefit from Core Measures services that make it easy to meet your data reporting requirements. Expert advisers are available to help you interpret data, identify opportunities and stay on track.

**Benefit overview**

**Clinical Data Base**
Transparent data to help you benchmark against your peers and identify, accelerate and sustain improvements

**Resource Manager**
Tools to identify trends and patterns in utilization and to pinpoint cost drivers in high-impact areas

**Core Measures services**
Support for fulfilling data-reporting requirements and measuring your performance against industry leaders

**Product overview**

The Vizient Clinical Data Base is the definitive analytic platform for performance improvement, trusted by 97 percent of academic medical centers, more than 50 health care systems, and 160 community hospitals nationwide. For more than 30 years, it has served as the foundation for hospitals’ performance improvement efforts.
data for risk and severity.

**Physician insight:** Use the separate reporting tab to easily create individual reports or scorecards for physicians and providers to support credentialing and meeting Ongoing and Focused Professional Practice Evaluation (OPPE/FPPE) requirements.

**Hospital profiler:** Easily identify appropriate compare groups and find facilities "like yours," or use the list of preselected compare groups to find the best one for benchmarking your performance.

**Resource Manager**

**Improved resource utilization:** Focus on high-impact areas such as pharmacy, imaging, laboratory and blood usage.

**Robust comparators:** Compare utilization for patient cohorts defined by any of the criteria available.

**Core Measures services**

**Expedited data collection:** Fulfill data reporting requirements for the Centers for Medicare & Medicaid Services, The Joint Commission and state agencies. Vizient is fully certified in all Inpatient and Outpatient Prospective Payment Systems (IPPS/OPPS) as well as e-measures.

**Benchmarking:** Compare your performance with that of industry leaders and build plans to improve your performance scores.

**Advice and peer support**

**Expert guidance:** Learn from advisers who can help you analyze your data and apply lessons learned from our performance improvement collaboratives.

**Improvement collaboratives:** Participate in up to three collaboratives annually to learn best practices from your peers and accelerate your initiatives.

**Root-cause analysis:** Perform a post-collaborative assessment with your adviser to define the keys to success for your organization.

**Listserver and user group:** Connect with other users of the tool through our email listserver and other user group activities.

**Reduced time and effort for implementation**

Reap the benefits of the Vizient Clinical Data Base in less time and with less effort than the industry norm. Implementation is supported and guided by experts to get you up and running so you can fast-track your hospital's performance improvement plan.
