# The Evolving Nurse Manager Program

Effectively lead your team to higher performance

## Essential skills

Nurse managers play a vital role in contributing to the overall performance of their team and organization at large. Yet the traditional clinical training may not fully prepare nurse managers for the unique mix of leadership skills needed to be effective. The Evolving Nurse Manager Program will deepen your ability to manage in today's health care environment. Scheduled over six months, this virtual series connects nurse managers through a trusted group of nationwide peers and subject matter experts to address leadership challenges to effectively lead their teams in today's healthcare environment. Through interactive discussions, case studies and scenarios, nurse managers will receive actionable strategies and practical tools they can utilize immediately. Each monthly module is followed by a mentoring circle to reflect on application of the learning.

## Target audience

We welcome new and aspiring nurse managers from Vizient organizations.

## Pre-requisites

Supervisor approval is required, and we will ask your supervisor to complete a pre- and post-assessment.

## What are mentoring circles?

With the guidance of a Vizient® nurse expert, participants unite in groups of three-to-four to discuss ways to apply program concepts on the job.

## Final project

Participants will create a professional development plan throughout the six-month program and submit it as a requirement for course completion.

## Registration fees

Vizient members

- \$2,950 per attendee
- Group pricing available for five or more participants from one organization

[Register](#)

## Digital recognition

Vizient is partnering with [Credly](#) to offer a digital badge for completion of this program. You have the option to display and share your learning achievement through social media, resumes, and signature blocks.

## 2024 Schedule\*
