

Three keys to achieving total cost and quality transformation

Imperatives for executive alignment and sustained improvement

Begin with a systemwide, data-driven strategy

Expand analytics across the continuum of care

Further link cost, quality and market insights

Enable more real-time insights

AI + machine learning
Big data platform

Embed high reliability principles into your operations

Transform culture, implement effective and reliable management systems, and empower your workforce. Partner with Vizient Safe and Reliable Healthcare on your high reliability journey.

Develop an integrated cost and quality action plan

Comprehensive approach to spend management

The full continuum of Vizient spend management services, across all provider nonlabor expense categories, will help organizations maximize the impact and efficiency of every dollar they spend.

Resource stewardship extends beyond spend management

The Vizient total quality management program begins with a focus on the systems and governance infrastructure necessary to help organizations advance and sustain care delivery excellence.
